PACIFIC COLLEGE

History

Education has always been the handmaid of religion among the Friends. The history of Oregon Quakerism has been no exception to the rule. When Friends began to settle in this part of the country, they at once began to provide for the education of their children, and long before the public schools furnished the means for elementary education here, the Society of Friends had provided schools for the primary education of their children.

But the need for higher education soon became apparent. In 1885, accordingly, the Friends church established Pacific Academy, an exceptionally strong secondary school for its day.

Soon the Academy became inadequate to meet the growing demands for higher education, and in 1891 the course of study was advanced, the institution was equipped for college work, and opened for students September 9, 1891.

In January, 1895, a joint stock company for the maintenance of the college was organized and incorporated, with a capital of \$40,000. In 1906 the stock feature was abolished, and the stockholders became life members of Pacific College Corporation. New members are elected to this corporation by Oregon Yearly Meeting of Friends on nomination by the Alumni Association, the Board of Managers, the Col-

lege Corporation, or the Yearly Meeting itself. The board of managers is elected by the members of the corporation.

While denominational in auspices, Pacific College is not sectarian in policy. Annual reports are prepared by the college management and submitted to Oregon Yearly Meeting of Friends, and this body appoints a visiting committee whose duty it is to visit the college frequently, to keep in touch with the work and to offer any suggestion, advice or encouragement they may deem proper. The college is controlled by the Board of Managers, twelve in number, divided into three classes, each serving three years. The Board of Managers, of which the president is a member, ex-officio, has entire control of the affairs of the college, electing the members of the faculty, administering the finances, conferring degrees and outlining the general policy.

To the faculty is delegated all the details of college work in instruction and discipline. They also recommend to the board those suitable to receive degrees and certificates.

Pacific College is the child of Christian sacrifice, and its prosperity is due to the enterprise and generosity of its friends, who have faithfully stood by it from the first, many of whom have made sacrifices nothing less than heroic to maintain the school, and are still making such sacrifices to make the college still more successful and efficient in the coming years.

Purpose

It is the purpose of the college to offer to young men and young women the benefits of a liberal education under the best Christian influence at a minimum expense. Its courses of study are arranged to give that broad culture which should be the possession

of every intelligent man and woman. The founders recognized the great importance of religious training, and the work of the class-room is not merely consistent with Christianity, but decidedly Christian. It is the hope of the management that Pacific College shall continue to send forth many Christian teachers, ministers and missionaries, as well as Christian business men, farmers, etc., and that it shall be a strong support not only to the Friends Church, but to the cause of Christianity wherever its influence may be felt.

Religious Life

It is the effort of those in control of the college not merely to furnish a place where students can acquire an education under safe environment, but to have the college so earnestly Christian in atmosphere and spirit that its students may constantly feel the pull toward the higher life. Pacific College deals with students at that age when character is crystalizing and taking its permanent "set" for time and for eternity. The student who graduates from college without having personally accepted Christ as his Savior is more than likely never to take that step. The student who graduates from college without dedicating his life unreservedly to God is far too likely never to make that dedication. The student who graduates from college without having caught the vision of his life work, without having received the touch of the Omnipotent for that work, and without in some way consciously beginning his preparation for it, is far too apt merely to drift through life, or to go from his work as a student out into the world to live a life of selfishness, devoting his energies to the seeking of his own ends rather than seeking to serve the Creator by service to mankind. In view of the need that students should

go from college equipped in the truest sense for life, it is the effort of the college so to care for the religious life of the students that those who are not active Christians when they enter the institution may, if possible, be won to the Christian life; that those who are Christians may be led to surrender their lives fully to God; that with the help He gives they may see their vision of service and undertake the work that is provided for them in the Master's plan.

The college is positively Christian. Although closely affiliated with the Friends church, no attempt is made to proselyte. All students are required to attend daily chapel exercises. Students are also expected to attend church and Sabbath school, but the college does not assume responsibility in this particular for students residing at home.

Location

The college is located at Newberg, Oregon, a beautiful and growing town of about 2,500 inhabitants, situated on the Southern Pacific Railway, 26 miles southwest of Portland, and 30 miles north of Salem, on the Willamette River. Easy connections may be made each way by daily trains and boats.

Newberg has many features which especially adapt it for a college town. Its nearness to Portland and Salem, yet its freedom from the temptations and distractions of the large cities; the fact that it is a temperance town and no drinking saloon has ever been permitted in its limits, saloons being prohibited both by city charter and by an overwhelming public sentiment; its beautiful location in the lovely Chehalis Valley, and its widely-known reputation for good order, make this a desirable place as a home for students, and we feel confident that parents and

guardians who desire a safe place to educate their children will find it at Newberg. This is a city of churches, there being nearly a dozen different denominations working harmoniously in the city.

Equipment

The college buildings are situated near the center of an ample campus of 23 acres, covered in part with a native growth of oak and fir, the whole commanding a splendid view of the surrounding mountains.

Wood-Mar Hall.—A modern brick building of two stories and basement houses most of the college work. The basement contains toilet and cloak rooms for both men and women, four large recitation rooms, and the furnace and fuel rooms. The building is provided with a warm-air fan system heating and ventilating plant. The first floor contains the library (both stack and reading rooms), three recitation rooms, a rest room, an assembly room for students of the academy, and the president's office. The second floor is devoted to music and recitation rooms and a large chapel with a seating capacity of about 700. This chapel is furnished with a splendid stage and is seated with opera chairs.

Old College Building, Boys' Dormitory.—The old building contains the laboratories for chemistry, physics and biology, and the museum. The north end of this building is fitted up for a dormitory for men.

Girls' Dormitory.—This is a two-story and basement building, conveniently arranged with accommodations for teachers and students, and affords table board for those who live in the hall, and others.

Gymnasium.—This is an ample building, conveniently located and well adapted to systematic

physical culture. Its basketball floor is one of the best in the state.

Laboratories.—Laboratories are equipped for work along all lines of science that are taught in the college and academy.

Museum.—The museum is in connection with the Science Department, and frequent recourse is made to it in illustrating the lectures and lessons especially in Botany and Biology. It also contains an interesting connection of curios, which is being added to from year to year.

Library.—The library occupies two rooms on the first floor of the new building. The library is constantly growing by the addition of new and valuable books. Over 1,600 books are catalogued according to the Dewey classification system, and there are almost as many that have not yet been classified. Books of reference and literary volumes are for use of students in all departments. The room is well lighted and well kept. Several hundred volumes have been added to the library the past year. In addition to the college library, students have free access to the new Carnegie city library, but a few minutes' walk from the college buildings.

The college reading room is well supplied with leading current literature, averaging 15 standard periodicals and newspapers.

Recitations and Lectures.

The average work of a student is eighteen hours of recitation per week. In all laboratory courses, two hours of laboratory work are required as an equivalent of one hour in recitation. Not more than eighteen nor less than fifteen hours of work per week shall be taken by any student without special

permission of the faculty. A careful record is kept of the attendance and scholarship of each student. In order to complete any work, the student must attain a grade of at least 75 per cent.

One recitation per week throughout a semester counts one semester hour.

Semester grades are made from daily recitations, written tests and final examinations. If there is a satisfactory excuse for absences from class, the work missed may be made up under the direction of the teacher. The student should report at once after the work is missed if it is desired to make it up. In case of unexcused absences, or of misconduct in class, the student will be marked zero for that recitation.

Extra-Curriculum Activities.

It is the constant aim of the college to maintain a high standard of scholarship. Students cannot expect to get high grades without doing a high grade of work. But the college authorities recognize that an important element of education comes from those student activities that are not included in the curriculum. While these things are regulated and are not permitted to interfere with the regular work, ample opportunity is given the students for development along the line of the various student activities.

Christian Associations.—One chapel hour each week is given to the Y. M. C. A. and Y. W. C. A. for their meetings. Association secretaries, ministers of the town and other visitors help to make these meetings vital and effective. The spirit of the Christian associations permeates the entire college. New students are welcomed by the members. The Christian welfare of the students is as carefully guarded as their intellectual advancement. Frequent receptions and social meetings are held under the auspices of the

associations. A students' prayer meeting is held once each week at the noon hour. Classes in Bible study, missions, personal work, etc., are conducted by the Christian associations, and have been largely attended. The present year every young man in the student body and faculty is a member of the Y. M. C. A., and the Y. W. C. A. has a record almost as good.

Physical Culture.—Pacific College believes that physical culture is an important part of a college education. There is much wholesome enthusiasm in athletics. In suitable weather outdoor exercises are entered into with much zeal. A spacious campus affords opportunity for baseball, football, tennis and track athletics, as well as various other sports, all of which are entered into by the students. Basket ball is the principal game during the winter. Physical training for girls has had special attention during this year, the old academy room being used as a girls' gymnasium.

The Oratorical Association.—The Oratorical Association is an organization formed by students of the college. Much interest is manifested in this work, and members from each of the college classes compete in the primary contest held at the college on the last Friday in January. The student who is awarded the first place in this contest represents the college at the state oratorical contest, held on the first Friday in March.

Debating is also a feature of the oratorical work. Debates are carried on by the students and chosen teams meet teams from other schools.

In each of these two lines of college work Pacific College holds a splendid record among the educational institutions of Oregon. Of the twenty-two

State Oratorical Contests held since its organization, Pacific College has won first place four times, also second place five times.

The Prohibition Association.—The students of the college maintain a flourishing Prohibition Association, for the study of the liquor problem. This association sends a representative to compete in the annual prohibition oratorical contest of the colleges of Oregon.

The Treflan Society.—The literary society for young women, with the above name, is a source of both pleasure and profit. Programs have been given every two weeks, in which excellent work has been done and much valuable experience has been gained.

The Agoreton Club.—The men's literary society, known as the Agoreton Club, does excellent work each year. Much interest is taken, both by the men of the student body and the men of the faculty. The club meets every two weeks.

The Greater Pacific Club.—This organization, usually called by the students "The Boosters' Club," has for its object anything and everything that will help the college, from yells at a basketball game to help in evangelistic meetings or the canvass for enrollment or for new students.

The Crescent.—The student body publishes a semi-monthly paper during the college year, known as the "Crescent." It is managed by a student editorial staff chosen by the student body, and is devoted to literary and college matters.

Chorus Classes and Concerts.—In addition to the regular work of the music department, chorus classes for both young men and young women are maintained

during the year, and excellent concerts are given by the choruses from time to time. In addition to these are the concerts of the music department proper, which are appreciated more and more from year to year.

Lecture Course.—Each year the students have the opportunity of hearing a splendid lecture and music course under college auspices, as well as many other high class lectures and entertainments.

Dormitory Life.

The life in the college dormitories is one of the distinctive features of Pacific College. It is the aim of the school to furnish for students from outside of Newberg an environment as nearly like that of the Christian home as possible. We feel confident that we are providing a home in which parents can safely trust their children knowing that their physical, social and moral interests will receive careful attention.

Dormitory for Girls.—This building, commonly known as Kanyon Hall, is a two-story and basement structure, with rooms for 25 to 30 girls. The rooms are large, each furnished with bed, with mattress, pillows, slips and sheets; table, chairs, wash stand and electric lights, with a wardrobe in each room. Each floor has a bath-room with hot and cold water, and the building is heated by furnace and lighted by electricity throughout. In addition to the rooms for students, there are living rooms for the superintendent and matron and student parlors on the first floor, and the basement is occupied by the kitchen and the student dining room.

The cost of rooms in this hall is \$1 per week where two share a room, or \$2 per week where one occupies

a room alone. These rates are strictly in advance. Where not so paid, fifty cents extra per month will be charged.

Dormitory for Young Men.—The dormitory for young men, provided a year ago through the generosity of the Woman's Auxiliary to Pacific College, is located in the Old College building. Each room is newly furnished with single beds, with mattress, pillows, slips and sheets; table, chairs, etc., with a large wardrobe for each room. The bath room contains a large shower bath, with hot and cold water. The building is furnace heated and electric lighted. The cost of room rent is the same as in the girls' dormitory. The number of rooms is limited in both dormitories, and application for rooms should be made as early as possible to assure accommodations.

Care Over Students.—It is the aim of the college to have a constant care over the welfare of the students. The "family" life in the dormitory for girls is under the control of the matron, who guards the social and moral interests of the young women as a mother would in the home. Similar care for the young men is exercised by the governor of the boys' dormitory, a member of the faculty who lives in the dormitory with them and looks after their interests, being responsible for their care and conduct.

In case of illness the student receives careful nursing, both from fellow students and faculty, with a committee of the Ladies' Auxiliary to assist in case of need. Thus in many cases the student who is ill is saved the expense of a trained nurse, who is secured, however, whenever it is necessary.

While all the liberty is given the students consistent with good moral safety and good school work, the college undertakes to look carefully after the

students placed in its care, especially those who reside in the dormitories. Students are not allowed to be away from the dormitories at night without consent, and their physical, social and moral interests are constantly guarded.

Boarding Club.

During the past six years the club plan has been employed in the college dormitories with much satisfaction. The club hires labor and buys provisions, each student paying his share. Under this plan meals have cost between \$2.00 and \$2.50 per week. The club affairs are in the hands of the superintendent and matron.

Expenses.

It is the constant aim of the college to keep the expenses of students down to the lowest point practicable.

The regular tuition for the college is \$25 per semester, and for the academy, \$20 per semester.

A pro rata increase is made in tuition charges in case more than the regular amount of work is taken.

A discount of five per cent is allowed where a full year's tuition is paid in advance.

The charge for five semester hours is one-third the full rate; for ten hours, two-thirds, and for fifteen hours the full rate is charged.

For each student there is a charge of \$2.00 each semester for library fee.

A student affairs fee of \$2 per semester is charged of each student. This entitles the student to admission to all athletic events, oratorical contests, etc., conducted by the student body, to subscription to the college paper, etc.

Special fees are charged in laboratory courses

to cover cost of materials, etc. The fee for the regular college laboratory course is \$3 per semester, and the academy \$1.50 per semester, with breakage extra.

A graduation fee of \$5.00 is payable to the treasurer of the college by each member of the Senior class before June 1.

All college bills, including tuition, room rent, library and laboratory fees, etc., are payable in advance, and every student is required to settle with the treasurer at the beginning of each semester. Students whose bills are partially or wholly provided for some other way should, nevertheless, report the same to the treasurer promptly at the opening of the semester, that he may understand their position and adjust their accounts. When tuition is paid by the year in advance a refund is given only in case of sickness of more than two weeks' duration.

Sons and daughters of ministers and missionaries of any evangelical denomination who are in active service as such are required to pay only half the regular tuition.

An extra fee of \$1.00 is charged for each special examination, unless for special reason this fee is remitted by the faculty.

Special arrangements must be made and tuition adjusted for work done outside of regular classes under faculty direction.

Summary of Expenses.

The following is a summary of the necessary expenses of the college year:

COLLEGE.

Tuition	\$50.00
Library fee	4.00
Student Affairs Fee.....	4.00

Board and room.....	\$110.00 to \$130.00
Total	168.00 to 188.00

ACADEMY.

Tuition	40.00
Library Fee	4.00
Student Affairs Fee.....	4.00
Board and room.....	\$110.00 to \$130.00
Total	158.00 to 178.00

To this must be added the laboratory fees as noted elsewhere, and the expense for books and laundry. It will thus be seen that expenses are made as light as possible, so as to bring the advantages within the reach of all. When students board in their own homes they are still subject to the college rules and regulations. Where special arrangements are made by parents or guardians, and for just cause, students may board in private families which co-operate with the faculty in carrying out the regulations of the college, but students will not be permitted to board in families where such co-operation is not freely given. Students from a distance should not make arrangements to live outside the dormitories without consent of the faculty. The price of board in private families the past year has been \$3.50 and \$4.00 per week.

Financial Aid.

The college desires to encourage self-supporting students, and many such are enrolled every year. Assistance is rendered to students in obtaining employment in the town, and those who desire to aid themselves in this way can generally find the opportunity. As a rule, no capable young man or young woman possessed of good health and a determination to secure a college education need fail in the attempt. A limited amount of aid is extended in the form of scholarships, which are loaned to students who are

unable to meet the expenses of an education. A few such loans will be placed next year. The college also affords an opportunity to a limited number to work in payment of tuition. The benefits of any such aid will be withdrawn from students whose department is not satisfactory or who fail to maintain a reputable standing in their classes. Application for such aid should be made to the president of the college before September 1, 1915.

The college has directly aided more than 25 per cent of all this year's students to partial or complete self-support.

Scholarships.

Free scholarships in the college are given each year to the students having the highest rank for scholarship, department and character graduating from Pacific Academy and Greenleaf Academy, and from the High Schools of Newberg, Springbrook, Rex, and Dundee.

These scholarships cover the tuition for one year in college, and are good only for the year following the high school or academy graduation.

Terms of Admission.

The requirements for admission to the college include satisfactory evidence of good character and the completion of a four years' High School course. Some latitude is allowed in the subjects taken in the High School, but the minimum requirement is as follows:

English, three units.

Foreign language, three units in one language or two units in each of two.

History and Civics, one unit.

Mathematics, three units.

Science, one unit.

Electives, to make a total of 15 units.

(A unit as given above is understood to mean a year's work in a subject, with five recitations per week. In case the student has had but one unit of history, at least five semester hours extra shall be done in college.)

Certificates of standing from standard high schools and colleges will be accepted without examination. In case no certificates are presented, such examinations may be required as will satisfy the faculty of the fitness of the student to carry on the work desired.

By Special Privilege.—Students are strongly advised to enter one of the regular courses, but when for sufficient cause this cannot be done, the privileges of the college are open to those pursuing partial or selected courses. Such students, not candidates for a degree, will be entitled to certificates of proficiency in the branches studied, but promiscuous selection of studies with no definite end in view will not be allowed.

All students coming from other schools must furnish a certificate of dismissal in good standing, both as to scholarship and deportment.

Credit for Quality.

It is very manifestly of more value to a student to pursue a course of study with great thoroughness than in such a way as barely to make the standing required to "pass" the subject. In former years, however, the lowest passing grade has counted as much toward graduation as the highest grade that could be made in the subject. The faculty has adopted a plan by which conspicuously thorough and successful work can be recognized by additional credit.

In no case can the extra credit exceed one-eighth of that gained by merely passing the subject, and the faculty reserves the right to weigh the courses pursued and to gauge the extra credit granted by the difficulty and value of the course and the thoroughness and excellence of the work done therein. The total credit granted to any student during his college course for quality, oratorical and debate work, physical culture, music and all other extra-curriculum work cannot exceed 15 semester hours.

Requirements for Graduation.

The amount of work required for graduation is 135 semester hours. This work is divided into three classes, Prescribed work, Major work and Electives.

Prescribed Work.—The prescribed work for all candidates for graduation is as follows:

Biblical Literature and History, 7 hours; Science, 10 hours; Mathematics, 6 hours; Foreign Language, 20 hours in not more than two languages; Philosophy (Psychology, History of Philosophy, Ethics, Education), 8 hours; History and Political Science, 10 hours; Public Speaking, 6 hours.

All Freshmen are required to take prescribed mathematics, rhetoric and a foreign language, except by special permission of the faculty.

Major Work.—For the selection of Major work the departments of study are divided into three groups as follows:

Group I. Philosophy, Biblical Literature and History, History and Political Science, Public Speaking.

Group II. Mathematics, Biology, Physics, Chemistry, Domestic Science.

Group III. Greek, Latin, German and French.

In addition to the prescribed work, each candidate for graduation must present enough work in his major group to make a total of 40 semester hours in that group. Those who select Group I or Group II for their major must present 20 semester hours of English; those who select Group III must present 30 hours of English.

Those who select Group II must present Analytical Geometry in addition to Trigonometry and College Algebra.

Elective Work.—The rest of the work required for graduation may be selected from any courses for which the student is prepared, under the direction of the president and faculty.

Degrees.

Students who complete their course with their major work in Group I or Group III will receive the degree of Bachelor of Arts; Group II, Bachelor of Science. These degrees, with the other privileges of the college are open equally to ladies and gentlemen.

THE DEPARTMENTS.

Courses are offered in the following departments of instruction:

4. **Extemporaneous Speaking.**—A practical course in various forms of public speaking not covered in the preceding courses. Text book work supplemented by practice speaking in and out of class. Open to students who have had Courses 1 or 2. Pearson & Hicks' *Extemporaneous Speaking*. Second semester, 2 hours.

XIV. DOMESTIC SCIENCE.

Professor McCracken.

This is a new departure for this year. Pacific College seeks to fit its students for life in the best possible way, and it is felt that the actual work of housekeeping, that occupies so large a place in the lives of so many students in after years, should be prepared for in college by work that is at once scientific and thoroughly practical.

The equipment for this work is given by the Ladies' Auxiliary to the College, and Miss McCracken, head of the department, will arrive early enough in the summer to instal the equipment and plan the work in detail for the coming year. Fuller announcement will be made in the August Bulletin, but it is the determination of the college management to make this course as practical as possible.

XV. MUSIC.

Voice.

Professor Alexander Hull.

Of the pupils completing the course in voice cul-

ture shall be required two years (or their equivalent) of work at the piano, and one year (or its equivalent) in harmony.

per term (12 lessons), one lesson per week. \$11.00
Two lessons per week, 12 weeks. 20.00
Private lessons in voice culture, one lesson per
week, per term of 12 weeks. 13.00

Two class lessons per week, term of twelve weeks, three in class, each pupil, \$8.

One class lesson per week, term of twelve weeks, two in class, each pupil, \$7.50.

Two class lessons per week, term of twelve weeks, two in class, each pupil, \$12.

Rules.

Pupils are expected to engage by the term, otherwise, as before stated, lessons taken at irregular periods will be charged at the rate of one dollar and a half each.

Pupils' recitals will be held at regular intervals during the term. Pupils shall be required to take part in these recitals at the discretion of the professor.

When lessons are excused they must be taken on some other day of the same week. Whether taken or not they will be charged for.

In case of protracted sickness, lessons will be excused entirely.

Lessons missed by the teacher will be made up.

Fees payable at beginning of term.

No credits given until tuition is paid.

All pupils are expected to register their names at the college during the first week of the term and either to pay tuition at that time or to make satisfactory arrangements for paying. If tuition is paid within ten days of registration a discount of 5 per cent will be allowed.

PACIFIC ACADEMY

Pacific Academy is under the direct control of the college faculty, which has full charge of its courses of study and its discipline. It provides thorough preparation for the college courses. Those who may not have the time or opportunity to pursue a more extended course of study will find the four years' course here laid down well adapted to give good mental culture, to fit them for teaching in the common schools or to enter upon the active duties of life.

REQUIREMENTS FOR ADMISSION.

The completion of the eighth grade work of the common schools is required for entrance to the academy. The school does not undertake to teach those who are not ready for full High School work. Students who complete the academy course of study will be granted a diploma which admits to the Freshman class in college. Not less than 15 full units shall entitle a student to graduate.

Provision will be made for those who desire to enter the Academy at the beginning of the second semester.

ACADEMY COURSE OF STUDY.

First Year, First Semester.

Latin, 5 hours. Algebra, 5 hours. General History, 5 hours. English, 5 hours.

First Year, Second Semester.

Latin, 5 hours. Algebra, 5 hours. General His-

tory, 5 hours. English, 5 hours. English Grammar, 5 hours.

Second Year, First Semester.

Caesar, 5 hours. Plane Geometry, 5 hours. General History, 5 hours. English, 5 hours. Business Forms, 5 hours.

Second Year, Second Semester.

Caesar, 5 hours. Plane Geometry, 5 hours. Civics, 5 hours. English, 5 hours.

Third Year, First Semester.

Cicero, 5 hours. Physical Geography, 5 hours. Advanced Algebra, 5 hours. English, 5 hours. Physiology, 5 hours.

Third Year, Second Semester.

Cicero, 5 hours. Botany, 5 hours, Solid Geometry, 5 hours. English, 5 hours. General Science, 5 hours.

Fourth Year, First Semester.

Virgil, 5 hours. American History, 5 hours. Physics, 5 hours. History of English Literature, 5 hours.

Fourth Year, Second Semester.

Virgil, 5 hours. American History, 5 hours. Physics, 5 hours. History of English Literature, 5 hours.

Twenty hours per week is regular work for an academy student. The first four subjects named in the course are the ones regularly taken. No student will be graduated from the academy with less than 15 units of work, and an extra unit may be required where the quality of the work is low. No student will be permitted to take college work with available academy work uncompleted.

ACADEMY ENGLISH.

First Year English.—Work will be done covering

the first twelve chapters in Herrick and Damon's Composition and Rhetoric for Schools. In addition to this the following classics will be used:

- Macaulay—Lays of Ancient Rome.
- Hawthorne—Tales of the White Mountains.
- Scott—Lady of the Lake.
- Lowell—Vision of Sir Launfal.
- Irving—Sketch Book.

Second Year English.—During this year the text used in First Year English will be completed, and the following classics will be studied:

- Eliot—Silas Marner.
- Carlyle—Essay on Burns.
- Scott—Ivanhoe.
- Shakespeare—Merchant of Venice.
- Bryant—Nature Poems.
- Burke—Speech on Conciliation.

Third Year English.—The first semester will be devoted to the study of the classics. Eight themes will be required in connection with this study.

List of the classics:

- Shakespeare—Julius Caesar, Twelfth Night.
- Tennyson—Idylls of the King.
- Poe's The Raven.
- Whittier's Snow Bound.
- Longfellow's Courtship of Miles Standish.
- Longfellow's Evangeline.

The second semester will be given to the study of the history of American Literature. Supplementary readings from American writers will be required. Texts: Long's American Literature; Long's American Poems.

Fourth Year English.—A History of English Literature will be given. Long's text will be used,

with supplementary readings from the writers of the various periods.

ACADEMY LATIN.

First Year Latin.—Latin Grammar is studied throughout the first year. A thorough knowledge of grammatical forms, a mastery of the principles of Latin composition and the acquiring of a vocabulary are the ends sought the first year. Text: D'Ooge's Latin for Beginners.

Second Year Latin.—Caesar is given the second year. Four books of the Commentaries are read. Accuracy and thoroughness of work are sought rather than the amount covered. Prose Composition is studied throughout the year. Texts: Caesar—Walker; Prose Composition—D'Ooge.

Third Year Latin.—Cicero is read the third year. Five orations are read, with special emphasis placed upon the uses of the Subjunctive Mode. Prose Composition, based upon the text, is studied throughout the year. Texts: Cicero—Allen and Greenough; Prose Composition—D'Ooge.

Fourth Year Latin.—Virgil is given the fourth year. Six books are read. Special study will be given Prosody, Style and Roman Mythology. Text: Knapp.

ACADEMY MATHEMATICS.

Algebra is studied throughout the first year. The course includes most of the subjects generally given in high school algebra, but some of the more difficult phases of this subject are left for the advanced course. Text: Hawkes-Luby-Touton's First Course.

Plane Geometry is given during the second year. Ability to solve exercises, and accuracy of expression

are among the ends sought. Text: Wentworth's.

Advanced Algebra is given the first semester of the third year. This is a review and a more comprehensive study of the subjects of the elementary course, and such additional subjects as are usually included in high school algebra. Text: Hawkes-Luby-Touton's Second Course.

Solid Geometry will be given the second semester of the third year. Text: Wentworth & Smith's.

ACADEMY HISTORY AND CIVICS.

The work in History in the Academy is intended to give the student a good general knowledge of the nations and institutions of ancient, medieval and modern times, and in the light of this general historical knowledge, a more thorough knowledge of the history of the United States and of United States government, federal, state and local.

ACADEMY SCIENCE.

Two years of science are regularly given in the Academy. In the first semester of the third year, Physical Geography is given. Tarr's text is used. A half year of Botany follows in the second semester, with Bergen's Elements of Botany as a text. In the fourth year, Physics is given throughout the year. Millikan & Gale's text is used. There is also opportunity for additional science work alternating with these courses.

CONDUCT OF STUDENTS

Every student is expected to be diligent in study and to deport himself in an orderly, courteous and moral manner, both in the college and in the community. When a student enters the college it is assumed that he agrees to have due regard for all the regulations of the institution. All the requirements are designed to promote the welfare of the college community. It is intended to allow the fullest liberty consistent with efficient work. It is taken for granted that the purpose of college attendance is earnest, persistent work, and that social enjoyment must always be subordinate to the regulations made for the accomplishment of the most efficient work. The patronage of students who are already seriously demoralized is not solicited. When the faculty is satisfied that a student is not properly carrying on his work, his parents or guardian will be notified of the fact, and then, if there is no reformation, his removal from the college will be requested.

The same course will be pursued when a student does not appear to be benefited by the advantages offered or shows an unwillingness to assist cheerfully in maintaining good order, or indulges in practices detrimental to himself and others or to the reputation of the college.

Students who are guilty of habitual profanity, the use of intoxicants, playing cards, carrying concealed weapons, or attending dancing parties, forfeit their rights to the privileges of the college. The use of

tobacco in all its forms is forbidden, and the students who cannot cheerfully accept the conditions here outlined are requested not to apply for admission.

Students must pay for, or make good, all damages to college furniture or property. The amount of damage will be assessed by the faculty.

All students not living at home are expected to attend church services regularly on Sunday.

A student shall not change his course of study or drop a study without the consent of the president.

Athletic, social, literary and other class and college functions shall not be arranged without the consent of the president of the college or the faculty committee in charge.

A student will be deprived of participation in inter-collegiate athletic contests who is not doing passing work in at least twelve semester hours.

Study hours, except on Saturday and Sunday, are from 8:30 to 12:15 a. m., from 1:20 to 3:50 p. m., and on Monday, Tuesday, Wednesday and Thursday, after 7:30 p. m. After May 1, evening study hours will begin at 8:00 p. m. During these hours students are expected to be in their rooms unless at college exercises or specially excused.

Punctuality and regularity at all college duties are insisted upon, and permission for absence from recitation or from town should be obtained in advance whenever possible.

No student will be permitted to take more than 18 hours' work in the college or 20 hours' work in the academy without consent of the faculty.

The faculty represents a board of control in regard to matters of discipline, and it is authorized to suspend or dismiss a student whenever, in its judgment, such action would be for the best interest of the college.

Dormitory Regulations.

Students in any department of the institution may not receive calls or visits at their rooms from persons of the opposite sex, except from members of their own families.

Students are expected to keep their rooms neat and clean. They should be put in order before study hours in the morning.

No student shall be absent from the dormitory any evening of the week without permission.

The parlor will be open to students at such hours as the matron may designate.

Pacific College was established and has been maintained at the cost of sacrifice and devotion nothing less than heroic. Friends of the college have in times past jeopardized every dollar of their earthly possessions in assuming the obligations necessary to make possible the splendid work that the institution has done in the past, a work whose magnitude and usefulness is out of all proportion to the size of the school. And the college must advance, for the opportunity for a greater work is clearly before it. It is confidently believed that in no college in the Pacific Northwest will a given sum invested for endowment purposes aid so many worthy young men and women toward an education that will mean a more useful life and a greater career. Those who have money to give to benevolent purposes, in large or small amounts, are urged to investigate the needs and the opportunities of Pacific College.

Bequests and Other Gifts.

Those who are not in position to give at once to the college, have two means of helping in the future support of the school. One is by bequeathing part or all of their estate to Pacific College. The other and better way, which will make it surer that the college

will actually receive the support desired to be given, is to give the college a deed to the property that is to be given, the giver retaining a life-lease upon it. This will give him the use and income from the property during his life, but will insure the college against the loss of the property through legal technicalities or otherwise after the death of the giver.

Or a note payable on or before decease may be given.

Do It Now.

There are many who clearly recognize their responsibility to make every dollar of their money do the most possible good in the world. Many expect some day to dispose of their property by bequest so that it will do good in the world after they are gone. But too many neglect it, and possessions that they intended should serve God and humanity after their departure come into the hands of those who do not need them and are not helped by them. If you have something to give to Pacific College, do it now. And if you have any property that you can leave to help the college in its work for the young men and women after you are gone, do not neglect to provide for the college in your will. Do it now.

Forms of Bequest.

For the aid of those desiring to make bequests, the following forms are given:

..... mo.....day19....

I give and bequeath to Pacific College at Newberg, Oregon, the sum of.....dollars, to be applied at the discretion of its managers for the general expenses of the college.

.....mo.day19...
