New Resource Center Opens

If all goes according to plan, George Fox College's new \$2.25 million M. J. Murdock Learning Resource Center will open its doors to students on August 31—the first day of classes.

While a few "minor carpentry projects" will continue through September, the 34,000-square-foot building will be sufficiently complete to accommodate students who want to study, hold meetings and check out books, said Merrill Johnson, director of Learning Resources.

The College is especially pleased with the opening date, since a discovery of asbestos in the original portion of the center—the Shambaugh Library—threw construction workers off schedule in the spring. Throughout April and May, Shambaugh was off limits to workers while decontamination specialists removed all asbestos material.

"The original completion date was scheduled the first of August, so the college is happy with only a month's delay," said Don Millage, Vice President for Financial Affairs. During the cleanup, construction workers were able to work around Shambaugh so little time was lost, he explained. "We're just glad it [the cleanup] is over so we can forget about it and go on as planned."

"The major task now is shifting the [library's 70,000] books around to new locations so we can lay the carpet," Johnson said. Workers also are installing many new "stacks," or steel shelves, to house more books, he added. The new library has capacity for up to 150,000 volumes.

A few miscellaneous chores that should be completed by the end of August include inspection of the elevator and installation of lights, thermostats, ceiling frames and tiles. New furniture also will be moved in this month.

The three-level building features an Instructional Media Center, a special-collection room, study carrels and a multipurpose room that can be divided into three sections. Unexpected addi-

Construction is coming to a close on the M. J. Murdock Learning Resource Center.

"The major task now is shifting the [library's 70,000] books around to new locations...."

tions to the library were two skylights, one placed over the main lobby and one over the north end of the building, over lounge seating. "We're really excited about it. It's going to be really nice," Johnson said.

Ground was broken for the new center on October 22 last year. The GFC Board of Trustees gave the go-ahead for the construction as the College's Century II Campaign passed \$5.4 million in donations and pledges. The campaign is at the \$6 million mark in donations and pledges today.

M. J. Murdock Charitable Trust gave \$1.35 million toward the project. In May, the Murdock Trust also awarded GFC an \$85,000 challenge grant to help the College in its attempt to fund costs for asbestos cleanup.

The grant, half of the estimated \$170,000 needed for cleanup, will be used to seek matching funds. The Murdock Trust will match dollar for dollar every new gift, or an increased amount given by a previous donor to the college's Century II Campaign. Deadline for matching the challenge grant is Jan. 30, 1989.

Under an \$82,500 contract, Asbestos Abatement Management Inc., Portland, was hired to vacuum and wash asbestos from the building.

Under an additional \$80,000 contract, the firm completely removed all asbestos-containing materials in the building, especially ceiling plaster and

pipe elbows. Another \$20,000 was needed to construct temporary partitions required for the removal, and \$8,000 to replace the ceiling plaster with new material.

Total asbestos-related costs of nearly \$200,000 were partially offset by savings when the winning bid for furniture for the building came in under expectations.

That left the College facing \$170,000 in unexpected costs with plans prepared to notify College supporters of the need for additional funds. George Fox President Edward Stevens then proposed the special grant to the trust.

Stevens said an immediate appeal is being planned to members of the College's President's Council and to others who might want to help.

"We think there are a lot of people out there who will want to help, once they know the need," he said.

While the College anticipates putting the asbestos cleanup behind it, a change of plans has George Fox appealing fines levied by two Oregon regulatory agencies because of the accidental asbestos release.

The state Accident Prevention Division on June 10 issued a citation with a \$2,300 penalty, alleging four violations. At that time Stevens said the College would not appeal. But he added "I continue to feel like we're the victim rather than the offender." He

Engineering Program On Its Feet

A year ago, George Fox College announced it would become the only Christian college in Oregon, and one of only a few Christian colleges in the nation, to offer an engineering major. This year the new program is on its feet with the addition of an assistant professor of engineering, a new lab and three engineering courses.

Joining the GFC physics faculty is Robert Harder, a graduate of Michigan Technological University currently working on a doctorate at Purdue University (see related story on page 2). Harder, the College's first engineering professor, will teach the College's first engineering courses: Engineering Mechanics—Statistics, Engineering Mechanics—Dynamics, and Strength of Materials.

GFC's seven freshman and six sophomore engineering students will take most of their general education, mathematics, science and lower-division engineering courses at George Fox. They will transfer to University of Portland for two years of specialization in one of five branches of engineering: civil, electrical (computer or electrical track), mechanical, management or science.

Offered in cooperation with the University of Portland, the new program includes three years on the GFC campus and two years in Portland, leading to two degrees: a bachelor's degree in applied science from GFC and an engineering degree in one of five areas from the University of Portland's Multnomah School of Engineering.

With the arrival of GFC's new engineering major has come a new engineering/physics lab. Located in the west wing of Brougner Hall, the new lab, a former chemistry lab, features six "island" work tables, a sink counter, computers and two work areas divided by lockers.

Robert Harder

Accommodating 24 students, the estimated \$17,000 facility was designed by Steve Hannum, associate professor of chemistry, and interior-design student Joyce Cossel, a 1980 GFC graduate. It was built by Don Cossel, Superintendent of Buildings, and GFC work crews.

Engineering Program Holds Potential For Ministry

When Robert Harder graduated with an engineering degree from Michigan Technological University in 1982, he bought a BMW and prepared himself for the good life. What he discovered during his prosperous years was that materialism does not bring happiness.

"It's so empty," he said.

Last year, George Fox became the only Christian college in Oregon, and one of only a few Christian colleges in the nation, to offer an engineering major. When interviewing applicants for the new assistant professor of engineering position, GFC searched for someone who would be comfortable teaching its unique "high-tech," Christian-based curriculum.

This year, George Fox selected Harder as its new engineering professor. The result is a solid engineering program that has the potential to be one-of-a-kind in the world.

"When I got to grad school I changed. I started drawing closer to Christ, and sensing that this 'area' could be developed," said Harder, who is working on a Ph.D. at Purdue University. The many "idealistic thoughts" that kept rambling through his mind eventually germinated into a specific idea. He wanted to establish a "tent-making" ministry in Eastern Europe—use labor, in the fashion of tent-maker Apostle Paul, to witness to others.

"There are a lot of countries where the doors aren't open to missionaries but they are open to engineers," Harder explained. "I see this [new position] as a tool where I can take my experience and my background and help students do this kind of thing."

Harder's idea was reinforced after he read the book *God's Smuggler*, written by Brother Andrew, a man who now lives in California and who regularly

smuggles hundreds of Bibles into communist countries. Harder also was influenced by one of his professors in graduate school. When the professor was a boy, before the outbreak of WWII, he and his family fled persecution in Lithuania. Before they left the country, the professor saw a Catholic priest who had been killed by Russians. It was the same priest who baptized him when he was younger.

"He understood what I wanted to do," Harder said. In contrast, another professor in graduate school had warned Harder that while he veered into ministry his peers would be making a lot more money and establishing much loftier credentials.

Harder hopes the type of student who enters GFC's engineering program is not motivated solely by money and possessions. "I hope their motive is Christ-centered," he said. "I consider all of them disciples of Jesus Christ and hope they exercise that through their engineering profession."

According to GFC admissions director Jeff Rickey, all 13 of GFC's engineering students applied to the College because they wanted to learn in a Christian atmosphere. One of the six who enrolled in the new program last year was Joel Schmeltzer.

Schmeltzer, now a sophomore in the engineering program, said he "definitely wanted to get into a Christian environment" after high school. At first he considered enrolling in the more-recognized engineering program at Oregon State University. After hearing "horror stories" about intense rivalry for grades between engineering students, however, Schmeltzer decided to follow in the footsteps of his mother, father, sisters, aunts, uncles and cousins who attended GFC. "I at least

wanted to start my first year at a Christian college just to get a right start," he explained.

While Schmeltzer was concerned about his spiritual growth at college, he did not recognize the potential for spiritual growth after he graduated, he said. It was during a visit with Harder that Schmeltzer came to realize the possibilities for mission work in the world.

Harder told Schmeltzer of the various career/mission options open in foreign countries. Now, Schmeltzer is considering getting a master's degree in engineering so he can teach or work as an engineer in the Middle East.

The foreign job, which would pay well, would help him pay off his school bills and allow him to witness in countries that are closed to missionaries. "And when I come back to the States it will show people that my life is different—that I have a different dedication than money," Schmeltzer said.

Like Schmeltzer, many students become excited about GFC's engineering program after they realize "Christians can use engineering to help the world," Rickey said. The new program shows students who have a heart for ministry that service "is more than just being a pastor or minister." It assures them that ministries today can be established in business and technical fields, he said.

While GFC's engineering program has the potential to branch into ministries, its roots are definitely academic. The College adopted an engineering program because the engineering field is one of the favorite career choices of high school males, said Lee Nash, Vice President for Academic Affairs. It has been estimated as many as 37 percent of the high school males in the United States indicate engineering as a potential college major.

To ensure a high-quality program, George Fox patterned its new program after several Oregon liberal arts colleges that offer engineering in cooperation with major universities. Offered in cooperation with the University of Portland's Multnomah School of Engineering, George Fox's five-year program leads to two degrees: a bachelor's in applied science from George Fox and an engineering degree in one of five areas from U of P's Multnomah School of Engineering—civil, electrical, mechanical, engineering management or engineering science.

Like the Newberg College, Harder is concentrating on establishing a high-quality academic program. One of his concerns is that GFC students be prepared for the intense competition and "weed-out" practices that exist at larger universities. His plan is to "prepare students for what they will find," so they survive the transition from a small-school environment to a larger school.

Only after academics in the engineering program are firmly established will Harder begin researching his ministry ideas. One of his goals is to

Don and Joyce Cossel and Steve Hannum, left to right, survey new engineering/physics lab.

Farmer GFC's New Vice President

Sam Farmer, a member of the George Fox College Board of Trustees for 19 years, will leave that post and his position as a national corporate sales manager to become the next Vice President for Development at George Fox College.

George Fox President Edward F. Stevens in August announced the selection of Farmer after a nationwide search that began last March.

Farmer has been national sales manager for Custom Food Products Inc., Chicago, for the last 18 years. He is a George Fox College alumnus, a member of the class of 1956.

The new vice president will be responsible for planning, management and coordinating of the College's programs in fund raising. He will coordinate the efforts of the Director of Development, Director of Alumni and Parent Relations and Director of Planned Giving as they contact corporations, foundations, churches and individuals.

Of the selection of Farmer, Stevens said: "Sam knows our constituency well. He knows the Northwest and the West Coast. He has an outstanding record in sales and business management and he knows GFC very well. I couldn't be more pleased with our ability to attract Sam to this position."

Farmer said he is looking forward to working at George Fox College, in the Christian education field. "Three generations of our family have had the opportunity to attend George Fox Col-

lege, and have been greatly influenced by the ministry of the school," he said. "Christian education is important to us as a family, and we are especially thankful for the faithful witness of the school for nearly 100 years. It is a privilege to have a small part in continuing this work."

The previous position of Vice President for Advancement and Administration, now redefined to emphasize

"Three generations of our family have had the opportunity to attend George Fox College."

fund-raising responsibilities, has not been filled since Buck McCrone left the post last fall. Farmer will begin duties January 1, allowing time for a transition from his current position, where he directs a nationwide sales and marketing group of 36. He serves as a member of the management team for Custom Food products, which manufactures and markets commercial food products and ingredients internationally.

Farmer, 54, started with the firm in 1961 as territory salesman and in 1965 was named regional sales manager for

the West (living in California) before becoming national sales manager in 1970. Previously, he was with the Carnation Company in Oregon.

A resident of Wheaton, Ill., Farmer has been active in leadership of the Wheaton Evangelical Free Church and is a member of the board of directors of Missionary Furlough Homes Foundation. He has Newberg ties: his wife's mother, Rosina Skare, is a Newberg resident, and his wife, Dorothy, is a graduate of Newberg High School and a GFC alumna. Two of their three sons live in the Northwest.

Sam Farmer

Board Selected

Naomi Martin Wilson (G58) of Newberg, Lloyd Pruitt (G64) of Portland and Nancy Craven Wilhite (G61) of Eugene have been elected to serve on the GFC Alumni Association Board of Directors.

The three were selected by the College's 4,500 alumni around the world. They will serve on the 10-member board for three years.

Wilson, reading specialist at Edwards Grade School who has been an elementary school teacher in Yamhill County for 26 years, is a former member of the GFC Alumni Board, completing two terms in 1973. She has been a member of Newberg Friends Church for 31 years, working with the

church's youth department. She is a member of the Northwest Yearly Meeting Christian Education Board and the Language Arts Committee of the Newberg School District.

Pruitt, a real estate broker, has worked in residential and investment counseling for 16 years. He attends Reedwood Friends Church and is a member of the choir. He is a member of the Northwest Yearly Meeting of Friends Pension Board and the Southeast Portland Mental Health Network Board.

Wilhite, a homemaker, teaches Sunday school at Eugene Friends Church. She is a former member of the church's Outreach Committee and member of the Medical Auxiliary of Eugene.

Alumni News & Notes

George Thomas (G41) and his wife, Dorothy, in July began a short-term assignment at Rough Rock Friends Mission near Chinle, Arizona.

Jack Willcuts (G44) in August joined the pastoral team of Reedwood Friends Meeting in Portland.

G. Burton (Jack) Frost (G45) has been elected president of the Oregon Retired Educators Association after serving one year as first vice president. He will be traveling throughout the state on organization business.

Paul (G46) and **Leona (Harris)** (G49) **Thornburg** are short-term missionaries in Kigali, Rwanda, for Evangelical Friends Mission. They are helping begin a Friends Church.

Roger Minthorne (G47) in November celebrated the 40th anniversary of his company. The independent electronic sales representative organization now has a new Portland complex of 14 offices.

Dick and Helen Cadd (G49) are back in the Philippines after a furlough in the states that started in May.

Gene Hockett (G51), Northwest Regional Director for World Gospel Mission, supervised the construction of a new roof for WGM's parsonage in Matehuala, Mexico. The project began Feb. 23.

Earl (G59) and **Janice (Bishop) Perisho** (G59) have accepted a call to pastor the South Salem, Ore., Friends Church.

Ed (G62) and **Marie (Schmelzer)** (n63) **Cammack** in June returned to the U.S. for a year's furlough from mission work in Arequipa, Peru.

Nancy (Forsythe) (G67) and **Hal** (G69) **Thomas** will be in La Paz, Bolivia, until June of 1989, when they are scheduled to come home to stay.

Dwaine Williams (n67) and his wife, Becky, in May returned to the U.S. from Santa Cruz, Bolivia, retiring from missionary service.

All GFC alumni (for whom we have a current address) should have recently received a mailer introducing an Alumni Directory... the first to be published in 25 years!

Every alumnus who simply fills out the information card will receive a copy of the directory. The purpose of the publication is to help you contact former classmates and strengthen ties with your alma mater.

A donation of \$15 is being requested to help cover production costs.

Mic Gwilym (G71) is varsity baseball coach at Woodinville High School in Woodinville, Wash. He teaches special education at the elementary level.

Dwight (G72) and **Georgia (Forgard)** (n73) **Larson** left in June for two years' volunteer work at the Free Methodist hospital in Kibogora, Rwanda.

Sam Ibarra (G73) coached the Oregon City High School girl's team to the Oregon State AAA track and field championship title May 27 and 28 in Eugene.

Wayne (G75) and **Bev (Ankeny)** (n79) **Chapman** recently moved their ministry from Juli, Peru, to La Paz, Bolivia.

Neil (n75) **Kellum** is service manager for the downtown Houston office of Harris/3M Document Products Inc. in Texas. His wife, **Zana (Krupp)** (n75), is a homemaker.

Lisa (Hawkins) Darling (G76) is administrator of Wilmington Friends School in Wilmington, Delaware.

Mark Thompson (G76) was accepted into the recording process of Southwest Yearly Meeting.

Steve (G77) and **Ginger (Kilgore)** (G77) **Hopper** in June spent a day visiting **Scott Mayfield** (G77) and his wife, Patricia, in Chino, Calif. They also visited **Vern** (G76) and **Lori (Bowersox)** (G76) **Ellcott**, who are living in Glendora, California, while Vern pastors a Disciples of Christ Church.

Gregory Johnson (G77) is director of Youth Guidance with Youth for Christ in Idaho.

Scott Mayfield (G77) was elected president-elect of the Kiwanis club in Pasadena, Calif.

Andrea (G77) and **Terry Sanders** (G77) in July moved to Mexico to work with World Gospel Mission in Monterrey. Terry gave up a nearly 14-year career as a disc jockey with KCCS Radio in Salem to answer the call. They will be starting churches, conducting home Bible studies and discipleship training.

Roy Gathercoal (G78) has started his own business, "Phronesis Communication Consultants," in West Lafayette, Indiana.

David Shawa (G78) is an anesthesiologist in St. Augustine, Fla. He and his wife, Karol, have an 18-month-old boy, Ramsey.

Paul Bishop (G79) in May was named a George Hay Brown Marketing Scholar by the American Marketing Association and the George Hay Brown Scholars Trust. He received an \$850 honorarium.

Allan Morrow (G79) was accepted into the recording process of Southwest Yearly Meeting.

Dean Gadd (G80) is lay pastor at New Hope Community Church. He and his wife, **Cynthia (Fiolo)** (G81), live in Portland.

Dan Hopper (G80) and his wife, **Vicky (Stuart)** (n82), are living in Los Angeles, Calif., where Dan pastors a small evangelical Methodist church and school.

Rob Hunter (G80) was promoted to director of planning and development for Washington Health Network. His wife, **Carolyn (Camp)** (n82), was teaching kindergarten and now is at home raising their children.

Tim Commins (G81) completed his commitment as a commissioned officer in the U.S. Army and was discharged in the rank of first lieutenant (P). He is now working full time as the Public School Transition Specialist for VADIS Northwest in Sumner, Wash. He also is working half time as a counselor at Mission Creek Youth Camp in Belfair, Wash.

Sherie (Winslow) Smith (G81) moved with her family to Kenya, Africa, to conduct a two-year ethnography of the Digo tribe for the Conservative Baptist Foreign Mission Society.

Frank Engle, Jr., (G82) was called to serve for three years as associate pastor with the title Coordinator of Ministries at Newberg Friends Church.

Todd (G82) and **Danita (Forney)** (G82) **Newell** are moving to Boston, Mass., where Todd will be the project manager for a company-wide interactive computer training program for John Hancock Financial Services. Todd formerly was the sales manager for John Hancock in Boise, Idaho.

Rachel Hampton (G83) has been accepted at the University of Nebraska. She will begin working on a Ph.D. in social psychology this fall.

Tim Lynch (G83) was accepted into the recording process of Southwest Yearly Meeting.

Dan (G84) and **Tami (Magee)** (G85) **Cammack** will reside in Arequipa, Peru, following completion of language school this month.

William (G84) and **Betty (Cammack)** (G86) **Kelley** have accepted the pastorate at Wyandotte, Okla., in Mid-America Yearly Meeting. A part of their work will include Indian ministries.

Eric Smith (G84) was recorded as a Friends minister. He and his wife, **Mary Kay (Evans)** (G84), who is a medical student at Loma Linda University, will continue as a Jr. High pastor-and-wife team at Rose Drive Friends.

Tom (G85) and **Doreen (Dodgen)** (G87) **Magee** moved to Whittier, Calif., where she is working on a doctorate in psychology at Rosemead School of Psychology. Tom is working as a senior planning analyst for Northrop, a large aerospace company. He also is working on a master's degree in human resource management at Azusa Pacific University. Recently, he received a "Pride & Excellence" award for computer programs he wrote for Boeing Airplane Company.

Gordon McGinnis (G85) is now the producer for Ambassador Inspirational Radio in Fullerton, Calif.

Rich Miller (G86) was accepted into the recording process of Southwest Yearly Meeting.

Jeffery VandenHoek (G86) received his masters of ministry degree from Friends Center at Azusa Pacific University in California in August. He and his wife, **Deana (Douty)** (G87), plan to move to Vancouver, Wash., this month to be a part of the church-planting team at Mountain View.

Judy Sherer (G87) is the manager of the restaurant at Meier and Frank in Salem.

Kathleen (Keesecker) Rauch (n88) is a registered nurse at Providence Hospital in Milwaukie.

MARRIAGES

Larry Herrick (G72) and Tami Nelson, June 17 in Newberg.

Steve Fellows (G76) and Denise Cavender, Sept. 10 in Sacramento, California.

Roy Gathercoal (G78) and Kathleen Kleiner, August 9 in Lancaster, Pennsylvania.

Carol Helm (G79) and **Mark McDonald** (G79), July 2 in Newberg.

Linda Corlett (G81) and Ronald Herdina, June 25 in Beaverton.

Kevin Edie (G81) and Barbara Howison, June 25 in Michigan.

Mark Serfling (G84) and HollyAnn Duffy, May 14 in Lake Oswego.

Sally Freeman (G86) and Bruce Forster, Sept. 23 at Champoeg State Park.

Arin Mares (G86) and Alex Manton, Aug. 6 in Newberg.

Lorinda Tittle (n86) and Timothy Steele, April 30 in Woodburn.

Christine Belnap (G87) and Tim Thiessen, June 17 in Portland.

Colleen Gallagher (G87) and Laine Holdahl (student), July 16 in Newberg.

Deborah Coats (G87) and Michael Ford, June 18 in Newberg.

Fritz Neumann (G87) and **Kay Bruch** (G88), June 25 in Portland.

Carmen Pinkerton (G87) and **Mike Ralls** (G88), May 14 in Newberg.

Jay Adrian (HRM88) and Janelle Moore, July 9 in Portland.

Julie-Anne Edmundson (G88) and **David Mueller** (G88), May 21 in Camas, Washington.

A 1970 George Fox College graduate and former alumni leader has been cited for heroism in the saving of three lives.

Rand Wintermute, a reserve officer in the Coast Guard, administered cardiopulmonary resuscitation to a 9-month-old girl and first-aid to her mother and 6-year-old brother, who were critically injured in an April 23 accident at Cape Disappointment, Wash. All three are alive today.

Wintermute, a Lake Oswego resident, was cited by Washington Gov. Booth Gardner and is being nominated by him to receive Washington's highest lifesaving award, to be presented in Spokane, Wash., Oct. 6.

Wintermute served on the GFC Alumni Board of Directors from 1984 to 1987.

Debeelynn Forseman (G88) and **Joey Rourke** (G88), May 7 in Newberg.

Becky Frantz (G88) and Brian Gilmore, May 21 in Camano Island, Washington.

Coreen Schmelzter (G88) and **Kevin Stanton** (n89), July 9 in Portland.

Jim Kundert (G88) and **Tami Webb** (n90), July 2 in Molalla.

BIRTHS

Letah (Childs) (G70) and **Cliff** (G70) **Samuelson** adopted a boy, Peter, born May 31, 1987.

Steve (G76) and **Janice (Camp)** (G79) **Strutz**, a girl, Bethany Rosalie, May 4 in Billings, Mont.

LoisAnn (Habecker) (G77) and Ed Pfister, a girl, Elizabeth Ann, April 7 in Lynchburg, Va.

Joel (G78) and **Mary Wiens** (n81) **Leisy**, a boy, Daniel Cyrus, June 22 in Seattle, Wash.

Diane (Thomas) (n78) and **Scott Thomason**, a boy, Gregory Nicholas, May 13 in Portland.

Juanice (Wisely) (n78) and Kirk Trigg, a daughter, Jamie Marie, April 8 in Coos Bay.

Holly (Strubhar) (G79) and Paul Peters, a boy, Kolby Mark, March 30 in Silverton.

Tim (G80) and **Londa (Beebe)** (G82) **Rochholz**, twin daughters, Lauren and Ashley, June 20 in Eugene.

Rob (G80) and **Carolyn (Camp)** (n82) **Hunter**, a girl, Lauren Elizabeth, June 13 in Seattle, Wash.

Sherie (Winslow) (G81) and Tom Smith, a girl, Cassandra Liane, April 25 in Portland.

Steve (G82) and **Caroline Huisenga**, a girl, Emily Marie, March 7 in Salem.

Cheryl (Low) (G82) and Ron Thiessen, a boy, Andrew Nicholas, May 21 in Portland.

Roger (G83) and **Deborah (Arnoldi) Miller** (G84), a boy, Grant Tyler, Feb. 9 in Forest Grove.

Lana (Behling) (G83) and Mike Wolford, a boy, Mathew David, April 15 in Boulder, Colo.

DEATHS

Bernice Mardock (G44) passed away July 6 in San Diego, Calif.

Richard Jensen (n79) passed away May 31 in Vernonia.

COLLEGE ANNOUNCES NEW PROGRAM: RIST

The Revocable Insured Savings Trust provides the following benefits for a deposit of \$500 or more:

- High interest rates (currently 7.7%)
- Monthly withdrawals allowed
 - Insured by FSLIC
 - Regular income payments
 - Unlimited additions allowed
 - Avoids probate costs and estate taxes

For more information call:

Harold Ankeny, Director of Planned Giving
503/538-8383 or write to him at
George Fox College, Newberg, OR 97132

Trustees Named

Dorothy Roberts of Boise, Idaho, has been named to the George Fox College Board of Trustees.

Roberts joins 13 others who have been reappointed to the 42-member board. All were approved by Northwest Yearly Meeting of Friends Church at its annual sessions in July on the Newberg campus.

Roberts, a retired elementary school teacher who serves as a volunteer at St. Luke's Hospital in Boise, is a 1938 graduate of George Fox College, then known as Pacific College. She replaces J. D. Baker of Newberg, Ore., executive director of the Friends Fund.

Eight of the 13 who have been reappointed are from Oregon: Hal Adrian of Portland, vice president of Human Resources at North Pacific Insurance Co. in Portland; Robert Monroe of Portland, president of Smith & Monroe & Gray Engineers Inc. in Beaverton; LeRoy Benham of Newberg, president of Climax Portable Machine Tools in Newberg; David Myton of Newberg, director of teacher education for the Oregon Teacher Standards and Practices Commission; Dwight Macy of Culver, a rancher; John Duke of Rogue River, a real estate developer/investor; Gordon Crisman of Tualatin, vice president and regional lending-center manager for Benj. Franklin Federal Savings and Loan Association; Roger Minthorne of Lake Oswego, president of Roger Minthorne Co., Minthorne Investment Corp. and Milger Properties Inc. in Portland.

Other members are Donald Lamm, pastor at Greenleaf Friends Church, Greenleaf, Idaho; Jack Meadows of Fayetteville, Arkansas, former president of Publishers Paper Company; Phil Harmon of Camano Island, Wash., chairman of the board, Harmon and Associates; William Wilson of Longview, Wash., chairman of the board, Wilson Oil Inc.; and Bill Field, Jr., of Sunnyside, Wash., business manager for National Gas Co.

One-third of the board, or 14 members, are elected each year, 6 nominated by the current board, 6 by the Northwest Yearly Meeting church organization and two by alumni. Terms are for three years.

The board selected Adrian, Duke, Field, Monroe, Harmon and Meadows. Northwest Yearly Meeting named Roberts, Benham, Lamm, Macy, Myton and Wilson. George Fox Alumni selected Crisman and Minthorne.

Field is chairman of the board. Minthorne is vice-chairman. Benham, Macy and Wilson are members of the 10-member Executive Committee. Monroe, Adrian and Minthorne are chairmen of the Development, Student Life and Investment committees, respectively. Members leaving the board are J. D. Baker of Newberg, executive director of Friends Fund; Donald McNichols, a retired Seattle Pacific University professor, who has become an honorary trustee; and Sam Farmer, a member of the GFC Board of Trustees for 19 years who is leaving to become the next Vice President for Development at GFC (see related story on page 2).

The first meeting for the College board members will be in Newberg in September. The second will be in February.

New Faculty Join GFC

Four new full-time members will join the George Fox College faculty the 1988-89 school year.

Robert Harder is Assistant Professor of Engineering with the College's new Engineering Department. Harder has a bachelor's and master's degree from Michigan Technological University.

He is currently working on a doctorate at Purdue University. He was a graduate research assistant at PU last year, and at MTU from 1984 to 1986. Before that, he worked with United States Steel Corporation for two years.

Craig Johnson of Wisconsin is joining GFC's Communication and Literature Department as Assistant Professor of Communication Arts. Johnson has a bachelor's degree from Luther College, a master's from Wheaton College, Ill., and a doctorate from University of Denver. He has been employed as an assistant professor at the University of Wisconsin since 1985.

He was a graduate teaching assistant at the University of Denver for two years, part-time training director for Denver Youth for Christ for three years,

and executive director for Mid-Wisconsin Youth for Christ for four years.

Rebecca Ankeny will join the College's English Department as Assistant Professor of English. A 1977 graduate of George Fox, she has a master's and doctorate from University of Oregon. For the past two years she was a professor at Westmont College in California.

Joining the Religion Department as Assistant Professor of Biblical and Quaker studies is Paul Anderson. He is coming to GFC from Glasgow University in Scotland, where he is working on a doctorate in New Testament studies. He has two bachelor's degrees from Malone College and a master of divinity degree from Earlham School of Religion.

He was senior pastor from 1984 to 1986 at Clackamas Park Friends Church, a minister of education for three years at Portland Reedwood Friends Church, a pastor for two years at West River Friends Meeting, Ind., and a youth minister and song leader for one year at Westgate Friends Church, Ohio. Anderson will begin teaching at GFC spring semester.

Others joining the GFC faculty are Karen Swenson and Manfred Tschan.

Swenson, a part-time mathematics professor at GFC since spring semester, will return as Assistant Professor of Mathematics Education. Swenson has a bachelor's degree from Colorado State University and a master's from Oregon State University. She currently is working on a doctorate at OSU, where she has been a graduate teaching assistant for the past five years.

Tschan joins the GFC faculty as Assistant Professor of Physical Education, International-Student Advisor and Assistant Soccer Coach. He has a bachelor's degree from the University of Bern, Switzerland. He has a master's from the University of Oregon and has completed coursework for a doctorate there. He was an assistant professor and head soccer coach at Concordia College in Portland from 1984 to 1988.

Dave Howard is returning to GFC, after a three-year leave of absence, as associate professor of music. Howard received a doctorate at Southern Baptist Theological Seminary in Louisville, Ky., this year.

New Center

referred to costs of nearly \$200,000 the College is having to pay for the asbestos removal and cleanup.

On June 17 the Oregon Department of Environmental Quality said it is fining the College \$3,750 based on five violations.

"After the first assessment I thought that was it," Stevens said. "Then with this added assessment for the same violation, I believe the total accumulation of fines is excessive and punitive."

He has asked the Accident Prevention Division, through the Workers' Compensation Board, for informal meetings to

avoid full hearings, if possible. "I think it would be beneficial to us and the agencies if we talked about the matter," he said.

Stevens said he hopes informal discussion—rather than full hearings—can be held. "That would be my preference," he said.

"I do not want to cause any additional expense to the State of Oregon or to George Fox College, if it is not necessary," he said.

Stevens said he also would prefer an informal conference with DEQ, but asked for a formal hearing with the agency, as specified.

Engineering

(Continued from page 2)

establish a "network" of organizations that places students in the work world overseas.

Of course, opportunities to minister in Eastern Europe companies will be limited. "You just don't go to companies there and say, 'Hey, I'm a Christian and I want to witness overseas,'" Harder said. "I have to prepare students for what they will find—people

aren't always going to be real receptive of this kind of thing."

Harder, himself, hopes to spend future summers working in Eastern Europe. "I think that it's really important for me to actually get involved in the missions work. That way I can give my students a better idea of what it's like," he said.

For now, however, Harder will have to put his ambitions for missions on hold.

It would be too difficult for him and his wife, Cynthia, to travel with three children, all under the age of three.

It may be for the best, anyway, since Harder is only in the planning stages of his missions plan. He has many ideas, now he just needs to sit down and work on them, he said. As only an engineer would describe it: "I see it as a car that's in park. It just needs to be put in drive."

Bruin Sports

ATHLETIC DIRECTOR

Craig Taylor, associated with George Fox College athletics for 15 years as player, coach and teacher, is GFC's new athletic director. He replaces Paul Berry, athletic director for the last four years.

Berry will take a position at Christian Heritage College, San Diego, where he will be involved with enrollment management, financial aid, registration and retention.

With the new appointment Taylor will give up his position as coach of the Lady Bruin softball team. He will, however, remain as coach for GFC's women's basketball team. Taylor, assistant professor of physical education, will continue to teach.

The new GFC athletic director has been coach of both women's teams since 1981, when he rejoined the George Fox coaching and PE staff after two years with a sporting goods retailing firm. From 1976 through 1979 Taylor was the Bruin baseball coach while also serving as assistant basketball coach.

Taylor, 37, came to George Fox in 1971 as a junior forward for the men's basketball team. In 1972-73 he helped the Bruins to the NAIA District 2 basketball title, the only GFC team to represent the district in the NAIA national basketball tournament in Kansas City.

Taylor graduated from George Fox in 1974, named both Outstanding Man in Teacher Education and Outstanding PE Major. He received a master of science degree in education from Linfield College in 1975. While enrolled in graduate courses he was a residence hall director at George Fox, in that position for three years.

As softball coach he directed his teams to an 83-69 record and in 1985 he was named NAIA District 2 Coach of the

Year for softball. He has coached the Lady Bruins in basketball to a 93-86 record.

From 1981 through 1987 Taylor was George Fox's intramural director. This last year he has served as director of the GFC Academic Success Program. He will leave that position as he takes the athletic director post.

Taylor is a member of the NAIA District 2's Executive Committee, serving since 1985. For the last six years he has been program director for the summer Perry's Basketball Camps.

At George Fox the athletic director is responsible for athletic department functions, including eligibility and compliance with GFC and NAIA regulations, budgeting, and department and sports center management.

NAIA

George Fox College President Edward F. Stevens has been named one of five United States college presidents to serve on the Administrative Committee of the National Association of Intercollegiate Athletics (NAIA) Council of Presidents.

Stevens was elected to the 32-member college presidents organization last summer when it was formed. Now he has been elected by that group to its leadership committee. The new administrative committee has John Tomlinson, president of Mesa College, Grand Junction, Colo., as its chairman.

Stevens will serve a one-year term on the Administrative Committee. He has a three-year term, until 1990, on the larger Council of Presidents. The full Council meets twice annually, in the fall and in March in conjunction with the NAIA's national basketball championship in Kansas City, Mo.

Stevens was elected by the 15-member District 2, which has private and public colleges in Oregon and Idaho and is one of 32 districts in the nation.
